

# CHIJOKE ONWUMELU

FULL-STACK WEB-DEV

## OBJECTIVE

Highly driven full stack developer very good in techs like reactjs, react.ts, Nodejs, Express, angular, asp.net web-api, .net(mvc), mongodb, MySQL and firebase, seeking a full-time position in a front-end or a backend role where I can lend my knowledge of OOP with many other software skills to help your organization improve profitability and to stand out from other rivals.

## ABOUT ME

-  6, timidiri street meiran road  
lagos
-  08029696733 | 07081861810
-  superkingsely@gmail.com

## INTEREST

-  Football
-  Music
-  programming

## SOCIAL

-  [linkedin.com/onwumelu-kingsely](https://www.linkedin.com/in/onwumelu-kingsely)
-  [github.com/superkingsely](https://github.com/superkingsely)
-  [chijioke-portfolio.netlify.app](https://chijioke-portfolio.netlify.app)

## EXPERIENCE

-  **FREELANCER**  
I help my colleagues that work in tech firms with their projects if they are not confident or having any issue with some libraries, classes and functions. I also take programming classes.

## EDUCATION

-  **UNIVERSITY OF BENIN**  
Biochemistry
-  **COURSERA**  
Through dedicated learning on Coursera and under the guidance of experienced senior web developers, I've gained proficiency in a versatile array of technologies crucial to modern web development. I've delved into React and Angular, mastering their frameworks for creating dynamic and responsive user interfaces. Additionally, I've honed my skills in .NET MVC and .NET Web API, learning to build robust backend systems and RESTful APIs that power sophisticated web applications. Furthermore, my exploration into Node.js and Express has equipped me with the ability to develop scalable server-side solutions, enabling seamless integration between frontend and backend functionalities. With this comprehensive training, I am confidently prepared to tackle any web development challenge. I am eager to apply

### CONTACTS WEB-API APP

#### nodejs and express ()

I have extensive experience in developing efficient, secure web applications using Node.js and Express. One of my recent projects was the creation of a Contacts Web API app, which utilized user authentication and authorization through JWT. Some key highlights of this project include:

- Utilizing Node.js and Express to create a robust and scalable web application
- Implementing a secure and user-friendly authentication system for users
- Incorporating JWT for secure authorization and data protection
- Ensuring a clean and well-defined file structure for easy maintenance
- Creating a comprehensive middleware pipeline for improved performance and functionality.

### STOCKS WEB-API

#### c# ()

I have successfully created a C# project called "Stocks Web-API", showcasing my skills in controller CRUD operations, Entity Framework, IdentityDbContext, data annotation, repositories, models, DTOs, entity relationship and cors .

### HOUSING PROJECT

#### c# \$ Angular ()

In my journey to become a full stack developer, I completed a housing project using Angular and web-api.

- Utilized Angular for an efficient and dynamic user interface design
- Developed a functional backend using web-api for seamless integration
- Demonstrated my skills through a full stack housing project
- Source code for the project can be viewed on my GitHub page: <https://github.com/superkingsely/HSPA>

## DRIVELINK WEB APP

vanilla js (2024/01 - 2024/06)

- Proficient in vanilla JavaScript for UI development and data manipulation.
- Skilled in building web transportation apps for enhanced user experience.
- Strong experience in GitHub for version control and collaboration.
- Developed a personal transportation app using vanilla JS for reference and portfolio.

As a web developer, I specialize in building user-friendly transportation apps using vanilla JavaScript. With expertise in GitHub, I have successfully managed version control and collaborated with teams on projects. My personal transportation app, available on [github.com/superkingsely](https://github.com/superkingsely), serves as a reference for my skills and capabilities.
